

CROWN AGENTS
ACCELERATING SELF-SUFFICIENCY & PROSPERITY

APPOINTMENT OF:

[JOB TITLE]

Dear applicant,

Crown Agents has always been about transforming the future for people around the world. Our strength lies in our deep knowledge of local context and in the quality of our local relationships.

We support and develop the self-sufficiency of individuals, communities and institutions. Whether tackling the consequences of conflict or working with our clients to turn immediate support into lasting prosperity, we are exceptionally experienced and skilled in changing lives for the better.

Our locally grounded partnerships, practical experience and strategic understanding make us world leaders in supply chain.

We provide the key support services that frontline humanitarian and stabilisation responders need to get on with the job in high-risk environments.

Where life-saving healthcare services are needed, we intervene at scale, even when institutions fail.

In emerging economies we support better governance and stronger growth by using our financial and administrative expertise to secure savings and increase revenues for clients.

The Sustainable Development Goals give the world a comprehensive universal manifesto for good development. A partnership of global skills and local knowledge will play an essential part in fulfilling that vision – and so will Crown Agents.

We would love you to play an important part in delivering this vision, we look forward to your application.

Best wishes

Fergus Drake, CEO

WHO WE ARE /

WE ARE AMBITIOUS /

We empower leaders to accelerate self-sufficiency and prosperity for their communities, businesses, institutions and countries. These leaders could be heads of state or school teachers, global companies or local entrepreneurs, partners or donors. We believe that for nations to successfully shape their future, and for citizens to take control of their lives, projects need to have a life of their own, beyond our input.

That's why we collaborate with changemakers, putting the local community and economy at the heart of solutions, ensuring those with most at stake have most to say when it comes to how these projects are identified, designed and delivered.

We facilitate individuals gaining the knowledge and skills they need to achieve greater self reliance. We facilitate dialogue between leaders, so they can adapt and adopt the ideas that work best. And we facilitate the fusion of these ideas with public and

private sector partnerships so that change is sustainable and scalable.

We understand the importance of innovation to implementation. This enables us to accelerate the actions of our beneficiaries, employees, partners and funders to strengthen systems and nurture prosperity.

Our history

As a social enterprise we are limited company owned by a non-profit-making foundation, our Foundation is our sole shareholder and oversees our ethos and activities. The Crown Agents Board is responsible for the company's corporate governance. We were founded in 1833 and operated as a British statutory corporation for many years before being privatised in 1997.

WHAT WE DO /

WE ARE SUPPORT /

Supply chain /

We provide the knowledge, systems and last-mile expertise needed to source and move goods in a way that accelerates prosperity through our supply chain solutions, procurement expertise and last-mile logistics.

Humanitarian /

We help governments and agencies deliver life-saving and life-changing results through our supply chain solutions, back office support to frontline responders and food security expertise.

Stabilisation /

We are a trusted specialist with a long history of working with governments across the globe to build strong, accountable institutions in some of the world's most conflict-prone and politicised environments through state-building, peacebuilding and security sector reform.

Health /

We work with governments and partners designing, building and delivering stronger health systems for productive and resilient societies through our specialised expertise in supply chain management and logistics, fund management and health systems strengthening.

Governance & public administration /

We help governments be more effective in delivering high quality, transparent public services through supporting public sector reform, improving public financial management, and working closely with civil society to deliver essential services.

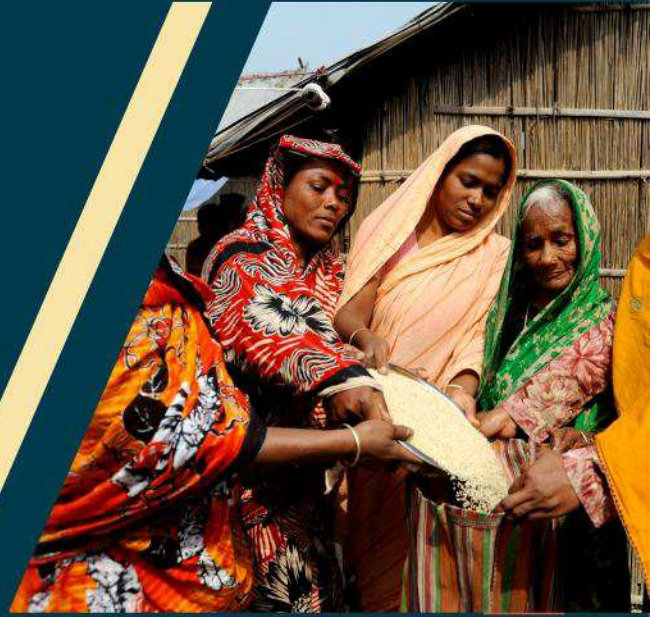

Prosperity /

We help governments benefit from enhanced access to global value chains through our economic growth work, providing analysis and advice, and delivering solutions that address the practical problems faced by the private sector and governments, as they seek to grow trade and public revenues.

Renewable Energy /

We work with institutions and governments broadening energy access and mitigating the impact of climate change in some of the remotest regions in the world through our innovative off-grid solar solutions and governance expertise.

OUR IMPACT /

Over **4,000**

truckloads of humanitarian aid delivered into Syria since the conflict began in 2011

Getting over **200,000**

children back into school in Ghana by the end of 2018. Through our role as fund managers for the Complementary Basic Education programme in partnership with the Ghanaian government

40%

savings achieved on oncology drugs for the Ukrainian Ministry of Health through our public procurement reform, getting essential drugs to those who need them most

Delivering essential health services across **80%**

of South Sudan through the Health Pooled Fund
