

Crown Agents Ukraine - General Procurement Notice – addendum 5

Requirements for Programme 11 – Medicines and medical products for paediatric dialysis

International non-proprietary name	Form of presentation	Estimated Demand, 100%	Estimated Quantity under the Assets Allocated
Paediatric haemodialysis kit (dialyzer 1.0-1.1 m ² , AV-lines, G17-19 fistula needles (2 needles: 1 venous needle and 1 arterial needle), bicarbonate BiBag cartridge or equivalent)	kit	4,312	3,616
Paediatric haemodialysis kit (dialyzer with the membrane surface area of 1.2-1.4 m ² , AV-lines, G17-19 fistula needles (2 needles: 1 venous needle and 1 arterial needle), bicarbonate BiCart cartridge or equivalent)	—“—	1,731	1,452
Paediatric haemodialysis kit (dialyzer area 1.2-1.4 m ² , AV-lines, G17-19 fistula needles (2 needles: 1 venous needle and 1 arterial needle), bicarbonate BiBag cartridge or equivalent)	—“—	790	662
Continuous paediatric veno-venous haemodialysis CRRT/SCUF (multiFiltrate Kit paed CRRT/SCUF) or equivalent, Filtrate bag 10 l or equivalent	—“—	20	16
Membrane plasma separation kit MPSP1 (multiFiltrate Kit MPS P1 dry) or equivalent, Filtrate bag 10 l or equivalent	—“—	105	88
Continuous haemodiafiltration kit (multiFiltrate Kit Midi CVVHDF400) or equivalent, Filtrate Bag 10 l, or equivalent	kit	98	82
2 mmol/l Potassium solution for haemodialysis and haemofiltration (5 l bag)	—“—	424	355
Haemodialysis consumable kit with the haemodiafiltration function in children (dialyzer with the 0.6-0.7 m ² membrane surface area, AV-lines, G17-19 fistula needles (2 needles: 1 venous needle and 1 arterial needle), bicarbonate BiBag cartridge or equivalent)	—“—	105	88
Diasafe Plus filter or equivalent (1 filter per 50 haemodialysis kits with the haemodiafiltration function in children)	piece	117	98

Consumable kit for the 4008H haemodialysis machine with the “Prometheus” extracorporeal liver support module	kit	10	8
D204 Haemodialysis Acid Component or its analogues in no less than 10 litre cans (diluted to no worse than 1/34)	piece	0	0
D204 Haemodialysis Acid Component or its analogues in no less than 7.8 litre cans (diluted to no worse than 1/44)	—“—	902	755
Peritoneal dialysis solution with 2.25-2.5% glucose concentration in 2,000 ml double bags	—“—	12,765	10,709
Peritoneal dialysis solution with 3.85-4.25% glucose concentration in 2,000 ml double bags	—“—	6	5
Peritoneal dialysis solution with 1.35-1.5% glucose concentration in 2,000 ml double bags	—“—	36,539	30,657
Disinfectant cap (detachable)	—“—	51,604	43,298
Peritoneal dialysis solution with 1.35-1.5% glucose concentration for assisted (hardware) peritoneal dialysis (5 l bags)	—“—	2,871	2,407
Peritoneal dialysis solution with 2.25-2.5% glucose concentration for assisted (hardware) peritoneal dialysis (5 l bags)	piece	1,448	1,214
Peritoneal dialysis solution with 3.85-4.25% glucose concentration for assisted (hardware) peritoneal dialysis (5 l bags)	—“—	246	206
Transfer tube (catheter extension)	—“—	177	148
Line clamp (switch)	—“—	145	123
Stay Safe Organizer Holder (or equivalent)	—“—	0	0
Stay Safe Organizer (or equivalent)	—“—	0	0
Paediatric kit: Consumable kit for assisted (hardware) peritoneal dialysis (machine cassette), drainage kit	kit	2,112	1,770
Kit: Consumable kit for assisted (hardware) peritoneal dialysis (machine cassette), drainage kit	—“—	726	609
Double-lumen (double-channel) 6-6.5 Fr haemodialysis catheter in a kit	piece	62	52
Double-lumen (double-channel) 7-8 Fr haemodialysis catheter in a kit	—“—	52	43
Double-lumen (double-channel) 11-12 Fr haemodialysis catheter in a kit	—“—	71	58
Assisted (hardware) peritoneal dialysis machine	—“—	2	2
Assisted (hardware) peritoneal dialysis machine carriage	—“—	3	2

Paediatric Tenckhoff Catheter for acute peritoneal dialysis, straight, 250-300 mm size, complete with an adapter	—“—	37	31
Paediatric Tenckhoff Catheter for acute peritoneal dialysis, straight, 300-450 mm size, complete with an adapter	—“—	2	2
Paediatric Tenckhoff Catheter for chronic peritoneal dialysis, 250-300 mm, curl, complete with an adapter	piece	8	6
Paediatric Tenckhoff Catheter for chronic peritoneal dialysis, 300-450 mm, curl, complete with an adapter	—“—	14	11
Paediatric Tenckhoff Catheter for chronic peritoneal dialysis, 450-570 mm, curl, complete with an adapter	—“—	14	11
Paediatric haemodialysis component kit (dialyzer with the membrane surface area of 0.6-0.8 m ² , AV-lines, G17-19 fistula needles (2 needles: 1 venous needle and 1 arterial needle), bicarbonate BiCart cartridge or equivalent)	kit	180	151
Continuous paediatric veno-venous haemodialysis CRRT/SCUF (Prismaflexset CRRT/SCUF) or equivalent, Filtrate bag 5 l or equivalent for children from 11 kg	—“—	30	25
Continuous paediatric veno-venous haemodialysis CRRT/SCUF (Prismaflexset CRRT/SCUF) or equivalent, Filtrate bag 5 l or equivalent for children from 8 kg	—“—	40	33
4 mmol/l potassium solution for haemodialysis and haemofiltration (5 l bag)	piece	160	134
