SIERRA LEONE

CROWN AGENTS' TEMPERATURE CONTROLLED WAREHOUSE, FREETOWN, SIERRA LEONE

Crown Agents presents a temperature-controlled storage solution in the heart of Sierra Leone. Ethically-run, managed to the highest standards and using the latest technologies, the Joshua Street warehouse offers both international and Sierra Leonean businesses a unique facility for multiple storage needs.

Unlike many other storage offerings in the country, this warehouse operates on a 'pay as you go' scalable costing model, giving users the opportunity to pay based on their varying usage, as opposed to up-front, fixed commitments.

WAREHOUSE OVERVIEW

- Located in Wellington, Freetown, Sierra Leone
- Secure walled and guarded 5-acre compound
- 6,000m³ of warehousing space, including 800m² of pharma-grade temperature-controlled warehouse
- Pallet racking options available up to 3m high
- Containerised storage options available on-site
- Compound available for storage of your own containers, with access to crane services available on request
- Selection of fully operatable mechanical handling, including 1.5 and 3-ton fork trucks and manual pallet jacks
- Open storage available for vehicles and/or other large assets
- 24/7 security on-site to safeguard the integrity of commodities
- Secure multi-user facility
- Customised insurance options available to cover your client's stock and liability needs

Temperature-controlled

Our storage solution is insulated between 15 - 25 degrees, with full temperature mapping completed to WHO standards. Using the latest technologies, we are able to remotely monitor temperatures and have a 24-hour alert system to control and adapt temperatures in real time.

Innovative technologies

The Joshua Street warehouse is equipped with a state-of-the-art cloud-based IT Warehouse Management System improving stock visibility for all your client's inventory. With product details shared on receipt we can provide automated reporting solutions confirming the latest status and location of stock from receipt, put-away and dispatch.

BENEFITS OF USING THE JOSHUA STREET WAREHOUSE

Our licensed warehouse adheres to international quality and WHO standards

Our solution is GDP compliant during all phases of storage, helping to maximise shelf life

We provide increased visibility and accountability through on-demand stock reporting

Bar-coding and scanning options are available

The warehouse has web tracking of stock and document visibility

Our on-site staff are GDP trained and operate to the highest health and safety standards

We have an internationally recognised security team on site 24/7

Our site is disaster ready. In the unlikely event of a national catastrophe you can have the assurance that your stock is secure.

We are unique in our financial benefits:

- Variable cost solution for your storage needs
- No advance commitment or pre-payment required
- Charges based on usage rather fixed commitments (subject to availability)

CROWN AGENTS

Crown Agents is the not-for-profit international development company that works in partnership with clients to design and implement practical solutions to their needs. We work with ministries, governments, institutions, donors, foundations, philanthropists and the private sector to tackle the complex challenges they face, whether that's seeking to meet the Sustainable Development Goals (SDGs), improving the quality of life and opportunities for their citizens, or responding to the needs of a global pandemic.

OUR SUPPLY CHAIN WORK IN SIERRA LEONE

In 2014, during the outbreak of the Ebola epidemic, the UK government partnered with Greenshields Cowie, Crown Agents freight-forwarding arm, to rapidly establish and manage a healthcare supply chain platform to respond to urgent needs in country. Alongside Crown Agents global procurement and logistics teams, we rapidly mobilised 20 supply chain specialists and established an end-to-end supply chain network for bulk commodity procurement, warehouse management and distribution.

Within 72 hours, Crown Agents had purchased 600 line-items to set up the first Ebola Treatment Centre (ETC) in Freetown. We then procured, transported, stored and distributed over 2 million kilos of products - 10 million individual items from 240 suppliers, including pharmaceuticals, laboratory supplies, personal protective equipment (PPE) and infrastructure. These were shipped using air and sea freight, and chartered on 130 flights arriving on a 48 hour rotation.

Since then, Crown Agents has been responsible for the warehousing and distribution of the Free Health Care medicines and supplies under FCDO-funded support to the Ministry of Health and Sanitation. These essential items have been distributed across Sierra Leone to ensure women and children have access to lifesaving treatment.

Our work continues in country, supporting the Sierra Leonean government make critical improvements to how money and resources are mobilised to quickly bolster essential services.
