# SUPPLY CHAIN MANAGEMENT: ISSUES AND SOLUTIONS

## COURSE OUTLINE

Supply chain management (SCM) is a vital and integral component in an organisation's success. It's essential to efficiency and profitability and should be frequently reviewed at a senior and strategic level.

However, many organisations fail to get the most out of their supply chains and their relationships with key suppliers and customers, wasting both time and money and missing opportunities to secure a greater (and fairer) share of the overall value of goods. This comprehensive and step-by-step programme provides practitioners with the tools and techniques to develop effective supply chains.

It first defines the supply chain, demonstrating its importance, illustrating different structural options in the marketplace and identifying the core competencies needed by staff. It explores the strategic role of SCM, with delegates covering the key techniques involved in developing a successful SCM strategy through a deeper understanding of supply chains from raw commodities through to finished products.

Delegates define the enablers for successful SCM, including organisational infrastructure; strategic alliances; human resource management; data and technology; compliance and M&E. They will also explore how to address quality and risk, including corruption, within the Supply Chain.

**COURSE OBJECTIVES:** On completion, you will be able to:

- Define the supply chain, its component parts and strategic stakeholder relationships
- Create a successful supply chain strategy
- Apply current SCM best practices in your organisation
- Identify risks within the supply chain
- Assess the capacity and performance of supply chain staff

- Enhance systems for effective monitoring and reporting
- Improve your data management and optimisation

## KEY TOPICS

- Fundamentals of SCM and understanding supply chain flows
- Key enablers for successful SCM including relationship management and technology integration
- International supply chains and global commodities markets
- Supply chain management in international development
- Contract Management
- Managing risk and tackling corruption
- Total Quality Management and ensuring sustainable SCM
- Improving the performance of a supply chain team

This is week one of **The Strategic Supply Chain Management Toolkit**

DURATION	FEE	DATE	VENUE
05 days	£1,950	30 September - 04 October 2024	Kigali

## "ON DEMAND" COURSES

In addition to the scheduled dates shown, we are flexible to schedule additional dates to our calendar in a location of your choice. To ensure we can explore adding an additional date, do aim to contact us with your request with a minimum of 4 months' notice to allow the course to be advertised.

## WE REWARD LOYALTY

We offer all our clients a '4+1' loyalty scheme. For every four delegates enrolled from an organisation in any calendar year, we will provide you with one additional place, free of charge.

**“Excellent training and communication throughout the programme. A rewarding interaction, good impact and improved procurement abilities acquired.”**

YUSUF BABA OCHE, Director, Pefpar Program Coordinating, Institute of Human Virology, Nigeria.  
A delegate attending Procurement: Strategic Practices and Supply Chain Management.

## FEATURED TRAINER UBASINACHI OTUONYE

Dr. Ubasinachi Otuonye is a clinical pharmacist with over 15 years of experience in pharmaceutical care, drug product management, health supply chain management, pharmaceutical products procurement, warehousing and distribution, good storage and distribution practices and healthcare waste management.

Ubasinachi Otuonye received a Doctor of Pharmacy Degree from the University of Benin, Benin City. Ubasinachi Otuonye also holds an MBA from the Business School Netherlands, is a member of the Pharmaceutical Society of Nigeria (MPSN) and has a postgraduate diploma in Peace Studies and Conflict Resolution (PGDipPCR) from the National Open University Nigeria.

Ubasinachi is currently the Senior Health Supply Chain Consultant with Crown Agents. He is also currently the Project Director for Gavi's COVAX Monitoring Agents for Nigeria and Ethiopia, which provides quality assurance for Gavi's supply chain, programmatic and fiduciary investments in the rollout of the COVID-19 vaccine in these countries.
