# THE AGILE PROJECT MANAGER

# THE AGILE PROJECT MANAGER
## [APMG AGILEPM® CERTIFICATE]

**COURSE OUTLINE**

Agility in managing projects is becoming a critical need in an increasingly pressured workplace. Effective focus, collaboration and communication, adaptability and change, control and empowerment, and sound risk management and governance, are key themes in successfully delivering an agile and flexible project.

Delegates will receive a grounding in the Agile Project Management Framework, centred around the 5Ps of project management: principles, people, processes, products and practices. This course will also provide an overview of the Dynamic Systems Development Method (DSDM) tools and techniques, taking an evolutionary approach to developing organisational solutions.

**COURSE OBJECTIVES:** On completion, you will be able to:

- Compare Agile project management with traditional approaches
- Deliver quicker, cost-effective and low risk change on an Agile project
- Apply core Agile project principles, concepts and processes
- Apply the DSDM approach to projects and daily activities
- Boost communication and stakeholder engagement skills
- Apply and tailor management styles for Agile projects

**KEY TOPICS**

- Agile framework and DSDM
- The principles of Agile PM®:
  - Deliver on time and to quality
